4TH OF JULY OUTING

ASA BOTT WRITES OF INDEPENDENCE DAY EXCURSION IN SUNNY FRANCE

Mr. and Mrs. Willard N. Bott of 1659 West Broadway have received an entertaining letter from their son, Asa Bott, who has been in France since October 24th with the 23d Engineers. In this letter, which is dated July 5th, 1918, he says:

Dear Mother and Home Folks:

I am going to answer five letters in this letter, so if it appears to be long or jumbled, please don't put much blame on the writer.

Mother dear, I hope this finds you well and happy as well as all the folks. How is father doing on the place?

I heard that Los Angeles had quite a big Red Cross parade. I wish I could have been there to see it also.

I am as well as ever and getting all the enjoyment out of this life it is possible to get; am able to eat three square meals a day and sleep eight hours without interruption; am beginning to speak a little French, but only a little. I am cultivating a "Chaplin model" on my face and still weigh about 165 pounds.

About the life we live I don't know where to start, but here goes: We have an ornamental stone worker in the Company and he has modeled a stone marker in the shape of a book. This is mounted on a large concrete base and is placed near the road in the center of the camp. The inscription is: "Co. C. 23rd U. S. Engineers, U. S. Army, A. E. F. July 4th, 1918." The concrete base runs into the ground about a foot and stands two feet above, so when we all come back to France for a visit I can show you the marker for our camp, the prettiest in France. The concrete base contains a champagne bottle with the company roster enclosed.

We have had a new stove built in the kitchen and it makes it possible to have all kinds of good things. For almost two months we lived on bacon and potatoes for breakfast and now we have such things as oatmeal with milk and sugar, oh boy! This morning we had hot cakes and steak. We have also had doughnuts, pumpkin and raisin pie, and bread pudding. Believe me live high now.

At last the good news of our leave has come. We were supposed to have ten days in four months, but were delayed. Part of the Company will go Monday. I haven't heard yet what date I go, but when I do will have plenty of news to write you. The excursion takes us down to Aix le Bain on the Swiss border.

Now I'll tell you how I spent the Fourth. We had breakfast at six and walked about two miles to the cross roads, where we caught the narrow gauge for our picnic grounds. It was quite a ride and we had a great time. You remember a short while ago I told you of a similar ride we took.

The games started at 9 a. m. with a big band playing patriotic airs. Our Company won in the tug of war contest. The games were: potato race, sack race, relay race, swimming races in the canal, and baseball games. At noon we had a free lunch. They fed about 2000 men that day. The lunch consisted of two roast beef sandwiches, two doughnuts, two pickles and a cup of coffee, and believe me we had plenty.

After dinner Brown, McKenzie and myself walked down to Commerce. It was about a five-mile walk, but as the most of the way was along the canal, we enjoyed it greatly. We walked all around the town, which took considerable time. All the buildings are in first class shape, some lately built and others as old as the hills. The class of people here is excellent, the styles of dress as fine as you could see anywhere. The stores are up to date and stock complete. It was a great treat for us to see such a town after being cooped up in the woods for so long a time.

The big, pretty plaza was crowded with French soldiers and civilians listening to a French band. I surely enjoyed it for it was the first French music I have heard over here.

After seeing most of the town we went to a large hotel, Hotel de France, and had our supper, consisting of roast pork, macaroni, eggs, strawberries and cream (oh boy!) and war bread and coffee—some feed for a soldier, believe me. It was pretty nice to sit down to a table once more on deep leather cushions and order anything we wanted. We were lucky enough to get a ride on our Company truck from the town clear into camp. That ended the first Fourth of July I have spent away from home.

Give my love to all the family, including Grandma, Papa and everybody. Write soon as I am always waiting for mail.

From your soldier boy,

ASA.

TRUSTEES' MEETING

EDISON COMPANY MAY RAISE RATES, MANAGER LYNCH REPORTS

The Board assembled at 8:30 p. m. Thursday evening, after adjournment as a Board of Equalization, all members being present.

The minutes of the last regular meeting of August 8th and of the adjourned meeting of August 9th, were read and approved.

The Chairman called for the hearing of protests against the improvement of Broadway east of Glendale avenue. The Clerk stated that no protests had been filed. A. B. Smart addressed the board in reference to this subject, but stated that he did not wish to be understood as protesting.

A communication was read from George Smith, of Los Angeles, enclosing a check in payment of the second half of city taxes on part of Lot 19, Oliver's West Glendale Tract, which amount did not include the added penalty required at this time, asking that the latter be remitted on account of the absence of the owner of the lot in the service of his country abroad. On motion of Trustee Henry the request was granted and the amount remitted ordered to be accepted in full payment.

An application was received from Paul M. Zebel for permit to operate a " jitney" bus, which having approval of the City Manager and the City Marshal, was on motion of Trustee Jackson approved.

A report was received from the City Manager on the bids for supplies for the fire house, referred to him at the last regular meeting. The report contained a recommendation that the board accept bids as follows, as the lowest and best:

Furniture, Ezra F. Parker...\$131.50 Bedding, supplies, etc., R. M. McGee 153.80

Lumber, Bentley-Schoeneman Lumber Co. 64.00

80 Watt Battery and Generator Set, Graham-Reynolds Co. 62.70

Skylights and Ventilators, Burkett & Goss.... 35.00

1 1/4 Carburetor to be installed on Truck, no bid, quotation by W. Tupper. 59.50

On motion of Trustee Muhleman, the recommendation of the City Manager was concurred in and it was ordered that purchases be made in accordance with the same.

The City Manager presented copies of letters passing between himself and E. W. Clapp, Gen. Frt. Agt. of the S. P. R. R. Co., in regard to the change of the name from Tropico to Glendale on the station of the company in this city. The letter of Mr. Clapp conveyed the information that the change had been made as requested by the City, effective August 10th. The letter of the City Manager expressed on behalf of the city an appreciation of the action of the railroad company.

The Manager of the Public Service department reported that the Edison Company, with which the city has a contract for power, has made an application to the Railroad Commission to raise rates, with a probability that the same will be granted.

At the request of the Manager of the Public Service department, Trustee Muhleman offered a resolution, which was on motion adopted as "Resolution No. 1045, A Resolution of the Board of Trustees of the City of Glendale establishing salaries and rates of pay of employees of the City of Glendale employed in the Public Service Department."

The Manager of the Public Service department reported an application by Mr. Learned to be served water by the city and presented a copy of agreement covering the matter, which having the approval of the City Attorney, was on motion of Trustee Muhleman, agreed to and ordered to be signed.

The City Engineer made a report on the improvement of Broadway and Trustee Muhleman offered the following resolution, which was adopted as "Resolution No. 1046, A Resolution of the Board of Trustees of the City of Glendale ordering certain improvements to be made on a portion of Broadway in said City."

The City Manager reported having had the City truck insured for a period of thirty days, which action was on motion approved.

On motion of Trustee Henry, Mrs. Chauncey Lake was appointed a member of the Playgrounds Commission.

Mrs. W. E. Edmonds, wife of the Presbyterian pastor, and her children go to Hermosa Beach for two weeks. Mr. Edmonds will be home from the North next week.

WAR REVENUE BILL DRAFT MADE PUBLIC

MEASURE PROVIDING FOR \$8,000,000,000 FOR WAR PURPOSES SHOWS HEAVY INCREASE ON INCOME TAX

(Special Service to Glendale Evening News)

WASHINGTON, August 16.—A practically complete draft of the eight billion dollar war revenue bill was made public today. This shows that income taxes have been heavily increased and in some cases doubled.

Exemptions are much the same.

The income tax provision includes a five per cent tax on the first \$4000 income and ten per cent on all incomes over \$10,000 with a heavy surtax beginning with a \$5000 income.

The surtax is three percent on incomes between \$5000 and \$7500; six per cent on the next \$2500; ten per cent on the next \$5000; fifty per cent on the next \$5000; twenty per cent on the next \$10,000 then the surtax increases five per cent per \$10,000 on incomes up to \$70,000.

For a \$5,000,000 income the surtax will be seventy-five percent.

Inheritance taxes are raised to fifty per cent and are made to cover life insurance policies over \$40,000.

Luxury taxes are levied covering everything except the bare necessities and including jewelry, phonographs, pianos, athletic goods, perfume, toilet articles, soda water and scores of other things.

Automobiles are taxed according to horse power and include both a tax on the manufacturer and the owner.

Tobacco, motion pictures and general amusement taxes are doubled.

The excess profits taxes have not been decided.

WOUNDED IN FRANCE

FREEMAN T. BREWSTER SUFFERS ON SOISSONS-RHEIMS BATTLE FRONT

George Brewster, an employee of the City of Glendale and residing in Casa Verdugo, has received word that his son, Corporal Freeman T. Brewster, who enlisted soon after war was declared by the United States, or in May, 1917, has been wounded in the fighting on the battle front in France between Soissons and Rheims, where the U. S. Marines have made such a brilliant record, and that he is now in a French hospital. The message states that he will be out of the hospital on crutches in a few weeks, and that he was hit by a shell or bullet. As he is evidently not mortally wounded, his parents are comforted and feel proud, as they have reason to be, that he has done his duty as a soldier even though he has paid a penalty.

As stated above, Freeman Brewster enlisted in May, 1917, and was sent to the Navy Yard at Vallejo, where he remained for three or four months. He then did guard duty at a wireless station up the coast and from there went to a camp for marines in Virginia. At that time he was with the 140th Marines. From Virginia he went to France, where he has been for three or four months, and that those months have been profitably spent by Freeman and his comrades in arms we all know from the reports of the splendid work they have done in defeating the Hun and furthering the great cause for which they are offering their lives. We are all proud of Corporal Brewster, who was a High School student and whose honorable battle scars will be envied by his school fellows.

AT HOME ON FURLough

Earl S. Terry, who is in the naval service at Mare Island, arrived a few days ago to spend a fifteen days' furlough with home folks. As his mother, Mrs. Ida M. Terry, is still at Hermosa Beach, most of the time is being spent with her there, his visit just at this time coming as a most enjoyable surprise. Earl reports that shipbuilding is progressing very rapidly on the Island, there being over eight thousand men steadily employed in that capacity.

Mr. and Mrs. E. A. Carvel of 1454 Oak street have just returned from a two weeks' trip to San Diego and Laguna Beach. They made the tour by auto and visited friends at Santa Ana and other places along the way.

ANOTHER GOLD STAR

THEODORE KOETHEN, OF 1915 CLASS, UNION HIGH, DIES IN FRENCH HOSPITAL

Again has death taken toll of our brave boys who have joined the colors. This time it is Theodore Koethen, a graduate in the class of 1915 in Glendale Union High School and the son of Mr. and Mrs. Walter L. Koethen of Eagle Rock. Monday morning they received word of his death in a French hospital, July 16, 1918. Just about a year before that date, or on July 23, 1917, when but eighteen years of age, he enlisted in Company B of the California Engineers and was sent to American Lake. There he fell a victim to mumps, a severe case, and being too ill to accompany the Rainbow Division to France, had to follow them later. After joining them in France he was stricken with pneumonia, which was followed by appendicitis, for which he underwent an operation. When convalescent from that, acute peritonitis set in and caused his death. He was buried with military honors and his parents have received a letter from the Captain of his Company giving full particulars of his demise.

The tragedy of this loss lies in the fact that after his sacrifice in voluntarily enlisting though three

RED CROSS SLACKERS

In reading letters from our boys in camp we notice that they are granted brief leaves of absence for change and relaxation and that they have a longer leave, which is practically a vacation, once in four months, which is as it should be. Even though they are not at the front they are engaged in strenuous and more or less monotonous work. They do it cheerfully however, and are most appreciative of everything that Uncle Sam and the army behind the lines at home is doing for their comfort.

The government and public opinion is taking care that there shall be no men slackers who remain unchallenged, and the "work or fight" slogan has the endorsement of soldier and civilian. But there are some slackers who are not men. They are the women who limit their activities to their own homes and their own amusements when they might be giving at least a part of their time to Red Cross work. In Glendale and everywhere in the United States women like Mrs. Lawrence Ellis, Mrs. Helen Sadler, Mrs. Ben Nichols and others whom we might mention are dropping at their posts of overwork because they are not relieved by volunteers whose duties at home are no heavier nor more strenuous than the domestic obligations of these patriots.

Somebody must stand in harness in the Red Cross work or our boys on the battle front are going to lack the comforts they should have. It is time some of these slackers came to the relief of the overworked women who are doing more than their share at the headquarters of the Red Cross Chapter on Brand Boulevard. Some hang back on the weak pretense that nobody has invited them to come. Our boys on the French front did not wait for an engraved invitation from Uncle Sam. They presented themselves for service when he called, and their mothers and sisters should do as well.

The local Chapter has received a big allotment of work to be finished by September 1st. Today the ladies under the direction of Mrs. Sadler are working on black serge dresses for eight-year-old girls for which the government is calling. Mrs. S. A. Bierbower is in charge of the workroom, and Mrs. A. M. Hunt and her daughter will be hostesses at the Red Cross tea this afternoon. Let's wake up all the Red Cross members and see if we cannot have that workroom filled every day until this order from headquarters is completed.

SHIPS FROM JAPAN

The first of the 45 steel vessels to be built in Japan for the United States Shipping Board has arrived in this country, been accepted, and placed in commission under the American flag. This ship is the Eastern Sun, a cargo carrier of 9,066 dead-weight tons. She was built by the Kawasaki Dockyard Co., of Kobe, Japan.

Of the 23 steel vessels chartered from Japan by the Shipping board, 22 to date have been delivered on this side of the Pacific. They total approximately 145,000 dead-weight tons.

OUR MEN FAST IN WAR

It is recorded that the German prisoners admit that they were dazzled by the speed of the American advance when our troops began operations in the present offensive.

Back of this simple statement, which conveys the information of the real power of the American soldier in the field is just one explanation—the athletic training of the American boy and young man.

Possibly one word affords the explanation of the efficiency of our men in open field work—baseball.

From the time he wears knickerbockers until Father Time lays his hand on heart and tissues, the American boy is an athlete.

While the German youth has been learning the "goose step" and practicing military drill during the years of his early manhood, so that he might become part of the Prussian war machine, the American boy at school or at work is playing ball, swimming, taking part in athletic contests.

The one is making every part of his anatomy stiff, muscle bound. The other is developing on the same principle that the colt in the field or the child rolling on the floor grows and develops.

In our army methods we have carried out the same theory of natural training and the development of the human body with athletics.

When these men enter the battles of Europe they are athletes, trained for fast and continuous work. The speed which dazzles the Germans is simply the concentrated spirit of play and the resultant physical development of our boys grown into men.—Sacramento Union.

INDIVIDUAL DUTY

This war is to be won not by one man, or one thousand men, or one million men, or one million people. It is to be won by the united efforts of all individuals of many nations.

PARKERETTES

By Samuel Parker

One of the ablest and best-equipped military men of our Revolution day was Benedict Arnold, but vanity and pride were the cause of his downfall. The Colonial Army was not able to support the style he desired to sport, and it poisoned all the patriotism he possessed and made him a traitor. He wanted hickory wood to use at his headquarters while Washington tramped around with his barefoot troops, the blood staining the snow that winter at Valley Forge. No children in America are named after Benedict Arnold.

The whole destiny of America was at one time tied up in a game of cards. Paulding, Rogers and Van Wert were playing a social game by the roadside when Arnold came riding along. The quick eye of the soldier saw him thrust a paper into his boot which, on examination, proved to be plans for surrender of all at command to the British. He was arrested by the card players, his treasonable purposes thwarted and he was made a wanderer over the world, the only man without a friend in America.

"Madam," said a British officer to a South Carolina Colonist mother, "I understand you have two sons in the Colonial Army. Is the report true?" "Yes, sir," she replied, "and I only wish it were a thousand times more true, by which I mean that, instead of two sons I had two thousand sons in the army with General Marion." "Madam," said he, "the war will soon end and it will go hard with your sons if found in arms against the king. Call them home and the king's amnesty can be obtained for them." "Never, never," she replied, "they are fighting a holy cause."

When the country church was made up of an old-time rural constituency it was well attended by a hardy and pious people who came by families in the farm wagon, the cushion seats composed of boards across the wagon box, the motive power being the plow team of the cornfield of the previous week. A circle of five to eight miles would fill the church with as much piety and devotion, though possibly not such fine clothes, as now come in autos to the more aristocratic surroundings.

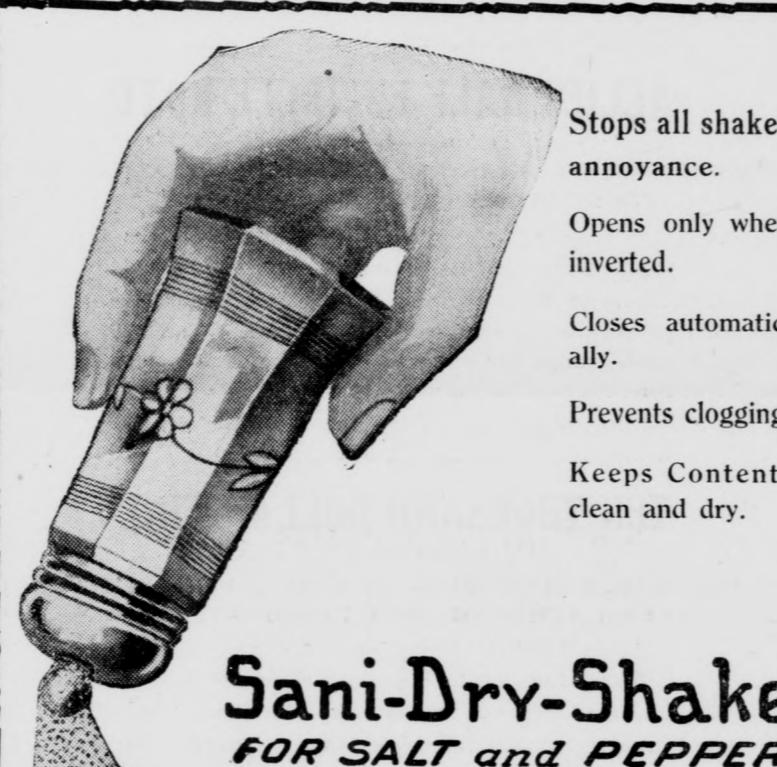

Nathan Hale is a name with which school children can not become too familiar. He was a patriot of the

highest type, though suffering the death of a spy at the hands of the British officials in our war of the Revolution. In the discharge of a very hazardous commission he was detected, arrested, tried and condemned to be executed as a spy. He walked to the gallows as erect and proudly as if on dress parade, his only regret being that he had but one life to give for his country. This spirit animates the boys today.

The whole destiny of America was at one time tied up in a game of cards. Paulding, Rogers and Van Wert were playing a social game by the roadside when Arnold came riding along. The quick eye of the soldier saw him thrust a paper into his boot which, on examination, proved to be plans for surrender of all at command to the British. He was arrested by the card players, his treasonable purposes thwarted and he was made a wanderer over the world, the only man without a friend in America.

Behold, the Mayflower nears the promised land, And on her decks the persecuted band Of Pilgrims come, but see the angry sky rides high. See, they are threatened with a watery grave. Yet faith exclaims: "Oh, Lord, Thou yet canst save." The vessel quickly rights, they reach the strand. And eager feet now gladly seek the land. But scarce had they in safety touched the sod Till every voice was raised in thanks to God. Oh how much we might have to deplore Had the Puritans never reached our shore. To their credit let it be said today, He never forgot or neglected to pray.

Personals

Miss Yarnell of 1418 Myrtle street and Miss Field have been attending the Advent camp meeting at Santa Ana.

Mrs. Bolen of 1469 Myrtle street and her sister have returned from an outing at Balboa, where they spent a week.

Miss Clara Snodgrass, of 329 Orange street, after an outing at Catalina with a party of friends, went to Ocean Park for a week and returned last Monday.

Mrs. Charles Perry of 333 South Louise street has returned with her two little daughters, Nora Mata and Bernice, from a week-end trip to Seal Beach, where the children had a glorious time.

Mrs. Kingsbury, of the Wright Apartments on Broadway, was called to La Crescenta Thursday morning by the illness of her father. She will probably be gone for several days.

Arthur G. Lindley, of 104 South Kenwood street, returned last evening from a two day's auto trip through San Fernando, Newhall, Saugus, Acton, Palmdale and Lancaster up into the Antelope Valley with H. Clay Needham of Newhall.

Clarence N. Rutledge, nephew of H. L. Perkins, is spending the week with the Perkins family at their home at 1507 Lomita avenue. He expects to be called to service inside of a month as mechanic in the Auto Corps of the Quartermaster's department. His home is in Santa Monica.

Mrs. P. A. Wells has called attention to the fact that Glendale is not the only locality which is being left by physicians. She and Mr. Wells have just received a letter from his doctor brother telling them that he has received a commission as Captain in the Medical Corps and is going over immediately.

Mrs. D. J. Heston and little daughters, of 709 Palmer avenue, are planning a trip to Long Beach next Tuesday for a stay of about two weeks. They will visit Mrs. Heaton's daughter, Mrs. Pearl Warren, who moved to Long Beach a short time ago. Mrs. Bottom, another daughter, will also spend a few days in the Beach city.

W. T. Sprows and family, of 1417 Myrtle street, have just returned from a two weeks' vacation at Camp Baldy and are very enthusiastic over the place and the good time they had while there. They report that it was crowded from the time they got there until they left. They had no end of joy in mountain climbing and camp amusements and are all feeling fine. Attorney Sprows declares he is ten years younger for the experience.

Franklin M. Head of Ardmore, Oklahoma, is a guest in the home of Mr. and Mrs. J. H. Franklin at 200 South Central avenue, having joined his wife and babies, who arrived some time ago. The family will probably be here for the summer. It is Mr. Head's first trip to the Pacific Coast and he is very much delighted with the Southern California country. He is an oil man, with interests in Oklahoma and Texas.

John Hyde Braly, 205 North Brand boulevard, left Thursday with his son, Arthur H. Braly of Pasadena, on a motor trip to San Francisco, where he will transact some business, remaining in the northern city for a week. They reached San Luis Obispo Thursday evening, remaining there until this morning. Miss Helen McCowan of Santa Barbara is the house guest of Mrs. Braly during his absence.

Mr. and Mrs. Will Reed of Laura, Peoria county, Illinois, who have been the house guests of Mr. and Mrs. W. L. Henderson of 108 Geneva street, have been visiting Long Beach and will go in a few days to San Diego. They and their little son are enjoying a three months' tour. It is Mrs. Reed's first visit to California and she and Mr. Reed are delighted with everything. They came by the northern route, taking in Seattle and other cities of the upper coast, and will go home about the first of September by the Santa Fe. They have such a big and profitable Illinois farm, however, that they are not likely to be persuaded to come to California to live at present.

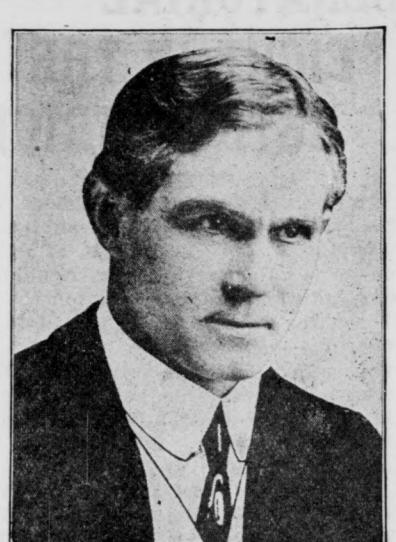

FUNERAL OF MRS. GEORGE SANFORD

Services over the body of Mrs. G. W. Sanford, who passed away Thursday morning, August 15th, 1918, will be held Saturday afternoon at the parlors of the Pulliam Undertaking Company on Broadway at 2 o'clock. It will be a Christian Science service. Interment will be made in the family lot at Rosedale Cemetery.

MONTAVILLE FLOWERS

Republican candidate for Congress in the Ninth District, will deliver in Glendale High School Auditorium, Tuesday evening, August 20, at 8:15 o'clock, the speech that aroused all Southern California. Subject: "You, Your Congressman and Your Country." Every patriotic American should hear it. All invited.

HINCKLEY-BEACH CANNERY

R. L. Hinckley, of the Hinckley-Beach Canning Factory at Burbank, reports that their cannery opened last week and they are now keeping 75 employees, mostly women and boys, busy with peaches. One third of their output will go to the government. Their main pack will be tomatoes, on which they have contracts for a large acreage. These will be ready about the 25th of August and they will then cease packing peaches and devote their entire resources to tomatoes, of which the government will also take 33 1-3 per cent. When that work begins they will find it necessary to more than double their working forces as they will operate night and day. Quite a number of their present workers come from Glendale and they will need many more a week hence. Messrs. Hinckley and Beach are residents of this city, Mr. Hinckley residing at 137 South Jackson street while A. W. Beach lives at 333 North Brand boulevard.

COUNTESS DE BRYAS

Mrs. Harry Duffield, Secretary of the Tuesday Afternoon Club of this city, was a guest Thursday of the Sierra Madre Club of Los Angeles at a reception for the Countess Madeleine de Bryas, a beautiful woman who is touring America in the interest of the rebuilding of devastated France. Mrs. Duffield says her English is almost perfect, the slight break lending a fascination to her appeal. She told heart-breaking stories of the war, of the separation of families which sometimes were never brought together again, and spoke of the warm feeling of regard which the French people entertain for the American soldier, the very fact that a soldier is American being an open sesame to their homes and hearts.

She will probably be in California for some time. Lucien Brunswig, chairman of French Relief Work in Los Angeles, was there, and about thirty prominent society people who are entertaining the Countess.

J. Stitt Wilson, Mayor of Berkeley, made a rousing address entitled "The Invisible Allies," a very splendid talk.

Mrs. Duffield declares, and good sound Americanism. She quotes as among other good things he said: "We don't want any peace that smells of sauerkraut."

GREAT BEREAVEMENT

Glendale is tendering its sympathy to Mrs. Lockwood, wife of Capt. G. O. Lockwood, of Glendale Union High School, who has just suffered a great bereavement in the death of her father and sister, Dr. A. Mackinnon and Mrs. W. J. Bailey. Both were connected with the Los Angeles Military Academy, in which for seventeen years Captain Lockwood was commandant and military instructor. Dr. Mackinnon, who was the physician of the school, died two weeks ago. His daughter, Mrs. Bailey, who was the wife of the president of the academy, was in delicate health but not in a condition to alarm her friends. The shock of his death after their many years of close association in the school was, however, greater than they realized, and the day following his funeral she relapsed into a comatose condition from which she never rallied, her burial taking place a week later than that of Dr. Mackinnon. Besides a devoted husband she is mourned by their twelve-year-old daughter, Margery Bailey. These deaths have shattered the family circle and Dr. Mackinnon's widow will now make her home with the Lockwoods, who have been living since last March at 809 West Fifth street.

Captain Lockwood expected to enter army service when he severed his connection with the L. A. Military Academy, but was disappointed and so accepted the position in the Glendale High School to which he has been re-elected.

FINE BROTHERHOOD MEETING

Most enthusiastic was the supper and program of the Brotherhood of the First Methodist Church of this city, held Thursday evening in the banquet hall of the church, at which members of other Brotherhoods and their ladies were guests. It was a Hoover supper, each guest bringing a contribution, the Brotherhood furnishing coffee and cocoa and doing the serving.

After all had satisfied their hunger and visited with neighboring guests, the chairs were pushed back and the speakers of the evening were introduced by Arthur G. Lindley, the presiding officer.

The first of these speakers was David Carl Williams, chairman of the committee which has the responsibility of selecting in this field men for Y. M. C. A. war work in France. It was a most enthusiastic and patriotic address and his audience was with him from the start.

Another speaker was Dr. C. C. Pierce of Los Angeles, one of the Government's Four-Minute Men. He delivered his four-minute address, which had to do with the lining up of the man power of the nation in cooperation and co-ordination in pushing our war program.

A third speaker was Rev. Earl H. Haydock, pastor of the Larchmont Heights Methodist Church of Los Angeles. His subject was: "The Function of the Church in Civic Life."

The president of the Federated Brotherhood, Dr. I. H. Durfee of Glendale, also made a short patriotic talk in which he showed that every nation's downfall begins when that nation forsakes the worthy ideal with which it started. He cited Germany as an instance, dwelling upon the honor in which the scientific, deep-thinking people of that land had been held until they reached out for power and world conquest and met with catastrophe.

Rev. Hugh Gibson, pastor of the Huntington Park Methodist Church, also made a few remarks on behalf of the California Dry Movement. He is one of the ardent workers in the Anti-Saloon League of the 61st Assembly District.

About 200 guests were present and the affair was a pronounced success in every way.

Last Monday Miss Gilbert, Miss Benedict and Mrs. Linnaberry went to Pasadena to return the finished work and also carried over the finished knitting to the Navy League. An agreement was made with the Red Cross Chapter for machines to be kept at the hall, and on Tuesday seven Singer machines were brought over and the three machines already at the hall were put in order for better service. Now there will be no excuse for not attending as there will be plenty of machines for the workers. Refugee work is the order of the day. On Friday of last week there was a goodly attendance and much work was finished ready to be sent in. We want to urge every one who can to attend the meetings of the Red Cross on Wednesday afternoons at the old postoffice building. There is such a great need for work being done. The Monte Vista Valley made a big showing in sending boys to the front. Now let those left at home make a big showing by giving time and energy to the Red Cross work to help win this awful war.

A letter from Mrs. Kincaid, who recently moved to Wallace, Idaho, says they are enjoying their new home and that Mr. Kincaid is much improved in health.

SENATORIAL FIGHT IN THE 36TH DISTRICT

Should the war continue, the bedrock of a continuous prosperity for Los Angeles and the coast line of the Southland seems to be so well laid that nothing in the range of human calculation could thwart a period of unusual and unlimited (as to time) prosperity. The outlay by the Government, great as it has been, is but voice for more, that will keep coming, and it all comes one way—nothing can be withdrawn.

There is a screw loose somewhere when the able appetited American citizen finds his appetite Hoovered on bread while 4,500,000 bushels of bread-making grain are turned over to the sour-mash brewers per month to make drinkables. This would make 5000 loaves of bread per day. Oh, for a Government to give us the bread. The 64 million pounds of sugar used by the brewers would give us sweater tea and coffee.

There is nothing in the primary law to put before the electors such uniformly clean and reputable and representative class of candidates as are now seeking nominating votes at the hands of their friends. With a few exceptions the entire lot might be quoted worthy. This quality comes from the quality of the voter, who is demanding that in this direction the best is none too good for us."

"Our congregation is so small I almost dread to come to any service any more," exclaimed a discouraged pastor to an official member. "What is the matter? Please tell me." "That's easy," said the official, "too much prosperity, too little piety, and good roads and the automobiles account for the rest."

Naval officers and their families who buy at commissary stores have gone on the honor system of sugar purchase established by the Food Administration for civilians.

Almost 70 per cent of all the sugar consumed in this country is used in the households. So it is up to the women to make the sugar go around.

*There will be a picture show Tuesday, Douglas Fairbanks in "An American Aristocrat," and a big war film, "British Bulwarks." This last is one of a series of real war pictures, made right on the battle grounds up near the front. You will see tanks in operation, machine guns, aircraft and anti-aircraft guns, wireless apparatus, scouts at work, and many more things than I can write of now. And these are all real pictures, not faked up for "the lot" somewhere in America. Don't miss it (this is the first one) nor any of the series. They will be tremendously worth while seeing, every one of them.
